SHORT IS BEAUTIFUL – 2 MINUTES VIDEO SCREENING

Curated by Fried Rosenstock

In 1973 ERNST FRIEDRICH SCHUMACHER published his bestseller “Small is Beautiful“, where he anticipated that the growth of economy has a limit, also because the resources themselves are limited. His prophetic visions have meanwhile all come true, but we continue producing goods, which are consumed faster and faster, also damaging the climate. The same happens in the field of contemporary art with its overproduction and its tendency to oversize. For this reason, “Short is Beautiful” chooses reduction as a winning vision. Beside the fact that many videos could easily be reduced to a length of two or three minutes, increasing the attention of the audience. Short is beautiful!

Program:

ANNA ANDERS - On Off Clip II
CARLO ISOLA - Life in progress
CHRISTIAN NICCOLI - Ohne Titel
CONSTANZE UNGER - Revenge of a daughter
